DIVIDEND RELATED INFORMATION

Pursuant to the changes in the Income-tax Act, 1961 ('the Act'), as amended by the Finance Act, 2020, dividends paid or distributed by the Company on or after 1st April, 2020 shall be taxable in the hands of the shareholders. The Company shall therefore be required to deduct tax at source ('TDS') (at the applicable rates) at the time of payment of the dividend. The withholding tax rate would vary depending on the residential status of the shareholder(s) and subject to verification of documents, sent by the shareholder(s).

Resident Shareholders:

Tax shall be deducted at source under section 194 of the Income Tax Act, 1961 (the 'IT Act') @ 10% on the amount of dividend declared and paid by the Company during financial year 2021-22, subject to the following:

Sr. No.	Particulars	Rate of TDS	Section under IT Act
1.	PAN is not available/Invalid PAN	20%	206AA
2.	Non-filing of return of income tax for any of the last two financial years (i.e. FY 2018-19 and FY 2019-20); and TDS as well as TCS deduction in each of these years in case of the shareholder is ₹ 50000 or more (Refer Note 1)	20%	206AB

Note1: Provisions of section 206AB of the IT Act are applicable with effect from 1 July 2021,

No tax shall be deducted at source on the dividend payable to a resident individual if the total dividend to be received by the said resident individual from the Company during a financial year does not exceed ₹ 5,000; or if an eligible resident shareholder provides a valid declaration in Form 15G/Form 15H or other documents as may be applicable to different categories of shareholders.

Further, if a shareholder has obtained a lower or Nil withholding tax certificate from the tax authorities and provides a copy of the same to the Company, tax shall be deducted on the dividend payable to such shareholder at the rate specified in the said certificate.

Non-resident Shareholders:

Tax is required to be deducted at source in the case of non-resident shareholders in accordance with the provisions of section 195 of the IT Act at the rates in force. As per the relevant provisions of the IT Act, the TDS on dividend shall be @ 20% or applicable rate plus applicable surcharge and health & education cess on the amount of dividend payable to the non-resident shareholders. For FII/FPI shareholders, section 196D provides for TDS @ 20% or applicable rate plus applicable surcharge and health & education cess.

However, as per section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) read with applicable Multilateral Instrument (MLI) provisions, if they are more beneficial to them.

A list of documents/declarations required to be provided by the resident shareholders and list of documents/ declarations required to claim the benefit of DTAA by the non-resident shareholders are available on the Company's website <https://www.nathbiogenes.com>

Kindly note that the documents should be send to Bigshare Services Private Limited., the registrar and share transfer agent at tds@bigshareonline.com

No communication on the tax determination/deduction shall be entertained after 20 August 2021

The above referred documents submitted by you will be verified by us and we will consider the same while deducting the appropriate taxes, if any, provided that these documents are in accordance with the provisions of the IT Act. In addition to the above, please note the following:

- In case you hold shares under multiple accounts under different status/category but under a single PAN, the highest rate of tax as applicable to the status in which shares held under the said PAN will be considered on the entire holding in different accounts.
- In case of joint shareholding, the withholding tax rates shall be considered basis the status of the primary beneficial shareholder
- For deduction of tax at source, the Company would be relying on the above data shared by Bigshare Services Private Limited as updated up to the record date.

May be further noted that in case tax on dividend is deducted at a higher rate in the absence of receipt of any of the aforementioned details/documents from the shareholders, and such shareholders may consider filing their return of income and claiming an appropriate refund, as may be eligible. No claim shall lie against the Company for such taxes deducted.

The Company shall arrange to email the soft copy of the TDS certificate to shareholders at the registered email ID within the prescribed time, post payment of the said dividend, if declared in the AGM. The said certificate can also be viewed in Form 26AS at TRACES <https://www.tdscpc.gov.in/app/login.xhtml> or the website of the Income Tax department of India <https://www.incometax.gov.in/home>

In the event of any income-tax demand (including interest, penalty, etc.) arising from any misrepresentation, inaccuracy or omission of information provided by the shareholder/s, such shareholder/s will be responsible to indemnify the Company, and also provide the Company with all information/documents and co-operation in any assessment/appellate proceedings before the Tax/Government authorities.

MANAGING DIRECTOR'S STATEMENT

Dear Shareholders,

The year gone by has left a lasting impact on humanity. The world was firmly in the grip of a severe health Crisis because of Covid 19, which impacted everyone in some way or the other. The crisis also placed great demands on everyone and forced us to think outside the normal course of business.

It was no different for us at Nath, while we were struggling with the pandemic related challenges, we achieved a great deal in the face of adverse situations. 2020 was also the year, when we took the decision of de-risk and strengthen our business model to make it more resilient and 'All Season'.

Despite these upheavals, we delivered strong operating and a stable financial performance. I also happy to report that your company has evolved into a Dividend paying company and in Q4 of this year, we declared a maiden dividend of 20%. Our focus has always been on creating long term value creation for our

stakeholders and it had always been our sincere desire to reward them for the trust and faith they have shown in us.

During the year, we have taken multiple steps to strengthen our Non-Paddy, Non Cotton segments ('NPNC'). We hired some of the best talent in the industry to ramp up the sales and distribution network in vegetable and field crops. The results of these strategic initiatives could be seen in the strong performance of our NPNC portfolio, which grew 14% in FY21 and contributed 38% to our overall revenue. We will continue to build on this portfolio and leverage our strong product base in each of these segments.

Despite a massively challenging year, where we were hit by Covid during key seasons, we delivered a strong revenue growth of 10% and maintained our long-term debt free status. We have been able to achieve these results because of the dedicated efforts of our teams on the ground.

Our sales and marketing teams have been taking extra efforts to deliver seeds to our farmers. They developed innovative methods and made good use of technology to help our farmers overcome this crisis in key harvesting season. Our teams did home deliveries for seeds wherever required and when the farmers are not able to reach the shops in time. It was done by following all appropriate covid protocols and these were conducted effectively in every region in which we operate. They also made good use of technology and prepared videos of our product and how to appropriately use them. We have been giving them regular updates using social media, multimedia, messaging services and daily calls to reach the farmer and our channel partners and providing them all the support they need. All these efforts ensure high recall for our products through continued support and handholding.

Over the years, we have made significant progress in developing products which help our farmers overcome various challenges they face in terms of vagaries of weather, pest infestation etc. Plant Nutrition has always been an important segment for us, and we have been adding products in this segment to as part of our stated strategy. This year, we augmented our PNS segment and launched two new products in our PNS vertical. Both are soil conditioners and help in improving the quality of soil and help grow a healthy crop.

In the cotton segment, we have one of the best performing seeds in the country which have been developed after many years of dedicated and specialised R&D. We put in extra efforts to promote our unique products mainly NBC-10, Sanket, Jumbo and Dana this year. We are seeing good market response to these products. The threat of illegal HTBt cotton continues to affect the industry. We, through our associations, are working very hard to request Government of India to regularize HTBt cotton and also stop the business of illegal supply of illegal HTBt through.

Similarly in our paddy portfolio, we have been focussing on Hybrid Paddy and have heavily invested in research in that area. I am very happy to announce that we have launched four new products this year in different segments of hybrid paddy, and they are Dhoom, Dhadak and Dhadak Gold. Market response to these new products launching has been phenomenal and we are greatly confident of their prospects.

As the pace of vaccination picks up across the country and globally, we are hopeful that we could see a more manageable Covid situation in coming months. We are further hopeful because of the favourable monsoon, which has picked up well and will support the Kharif season sowing. Given the strong demand pull for our products and our strengthened distribution network, I am confident of delivering a 15% growth this year. We will continue maintain our strong profitability and balance sheet strength.

We look forward to your continued support in our next phase of growth.

The closing balance of the retained earnings of the Company for FY 2021, after all appropriation and adjustments was ₹. 5566.16 Lacs and the same has been retained as such.

8. COVID-19 IMPACT.

The outbreak of the deadly COVID-19 virus and the ensuing lockdown imposed across the country affected business operations. The health of the employees and workers became a priority; stoppage of operations for an uncertain period resulted in a large financial burden on the one hand and workforce idling on the other. COVID 19 is an unprecedented challenge. The lockdown gave India time to make a concerted effort to flatten the outbreak curve. However, towards later part of the year consequent to significant opening of the economic activity across the nation the demand picked up compared to that during the initial period of Covid-19. India is currently experiencing a massive second wave of Covid-19 infections. However, we expect no major changes in the economic activity as the nation is preparing to face the Pandemic with vaccines and preparedness

MANAGEMENT DISCUSSION AND ANALYSIS

INDIAN ECONOMY

With Covid-19 playing havoc with the economy before the new financial year even started, the year would be remembered as an extremely difficult one. At a time when India's growth rate was at a six-year low and decelerating.

As India went into a nationwide lockdown, the government announced its initial set of measures to limit the damage. "The Great Lockdown" that saw crude oil prices turn negative for the first time in history. In early September, India's first official estimates showed that the domestic economy had contracted by almost 24% in the April-May-June quarter — making India one of the worst-hit major economies in the world. India had entered a technical recession, moreover since this contraction came at the back of secular deceleration in GDP growth rate since 2016-17 onwards, the economic stress was showing up in rising joblessness, increasing poverty and falling health and wellbeing of citizens at large.

AGRICULTURAL SECTOR IN INDIA

India has the largest arable land resource in the world. Agriculture is the livelihood of 58% of India's population. India is the largest producer of spices, pulses, milk, tea, cashew and jute, and the second largest producer of wheat, rice, fruits and vegetables, sugarcane, cotton and oilseeds. Further, India is second in the global production of fruits and vegetables and is the largest producer of mango and banana.

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year due to its immense potential for value addition, particularly within the food processing industry. Indian food and grocery market is the world's sixth largest, with retail contributing 70% of the sales. The Indian food processing industry accounts for 32% of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. Essential agricultural commodities export for the April-September period of 2020 increased by 43% to Rs. 53,626 crore (US\$ 7.3 billion) over Rs. 37,397 crore (US\$ 5.1 billion) in the same period last year.

India is among the 15 leading exporters of agricultural products in the world. Agricultural export from India reached US\$ 38.54 billion in FY19 and US\$ 35.09 billion in FY20. The total agricultural export was US\$ 10.40 billion between April and October 2020. The organic food segment in India is expected to grow at a CAGR of 10% during 2015-25 and is estimated to reach Rs. 75,000 crore (US\$ 10.73 billion) by 2025 from Rs. 2,700 crore (US\$ 386.32 million) in 2015.

India is expected to achieve the ambitious goal of doubling farm income by 2022. The agriculture sector in India is expected to generate better momentum in the next few years due to increased investment in agricultural infrastructure such as irrigation facilities, warehousing and cold storage. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers. India is expected to be self-sufficient in pulses in the coming few years due to concerted effort of scientists to get early maturing varieties of pulses and the increase in minimum support price.

SEED SECTOR IN INDIA

Indian seed industry size is around US\$4bn has been growing at 20% cagr in last 8-10 years. It is expected to double to US\$8-10bn market by FY25-26. Global seed market is US\$60-70bn and growing at 6-7% and likely to touch US\$90-100bn by FY25-26. India despite the 2nd largest population is just 4% of the global seed market. At the same time, India's share of global export market is a mere 1%. Given the varied weather conditions existing in the country, India can export seeds to whole of South Asia and Africa. Seeds are just 5-6% of the farming cost and one of the most important way to improve productivity. Sharp improvement happened in productivity of cotton farming due to use of Genetically modified seeds. Similar scope is there for other crops too. It seems like a secular growth story and seed companies can grow their revenues in excess of 10-15% consistently in the foreseeable future.

The adoption of hybrid seeds has significantly increased in the country during and after the Green Revolution, due to the increasing pressure for high crop production for food security. The hybrid seed sector witnessed a growth of 15-20% per year, over the past decade. The major boost has come from the increased adoption of Bt cotton hybrids, single-cross corn hybrids, and hybrid vegetables. This increased demand for hybrid seeds has boosted the market for commercial seeds. The aggressive promotion measures undertaken for the use of hybrid seeds resulted in the increased demand for, and production of, hybrid seeds in the country. Farmers are adopting and using more hybrid seeds, considering the disease- and pest-resistant properties of these seeds, and reducing the losses and cost of production.

Under the row crop segment of the market studied, cotton holds the maximum revenue share. This is primarily due to the large-scale adoption of Bt cotton seeds in India. The cottonseed segment in India has witnessed the highest CAGR during the forecast period. Cotton is an important part of the Indian economy, as this crop forms the backbone of the Indian textile industry.

Cotton has been a stellar example of the role of seeds in improving the productivity of the crop. Indian yields are a far cry from global averages and those seen in the developed world. Apart from fraction land holdings and limited irrigation facility, quality of seeds play an important role. Looking at the Seed Replacement Ratio (SRR), the ratio of cultivation done by new seeds, there is huge scope in increasing seed sales of Paddy, Maize and Vegetables. Many factors are driving the demand for high quality seeds

1. Increasing Disposal Income
2. Increasing Seed Replacement Ratio
3. Government Policy Support
4. Increasing adoption of hybrid seeds
5. Patent Protection systems & intellectual rights over plant varieties
6. Increased investment from public as well as private sector

NBIL

Nath Bio-Genes (India) Limited is one of the oldest seed companies in the country with over 30 years of experience in manufacturing & distributing seeds to Indian farmers. Relying upon its strong R&D background, Nath Bio-Genes has produced several highly ranked cotton seeds in the country which have done well in the ICAR trials and stood the test of time with respect to various virus tolerance as well as improved yield in spite of weather fluctuations. It is the first seed company in Asia Pacific region to get ISO 9001 certificate. It's new launches Sanket and Daksh cotton seeds have been ranked among top 3 in most geographies and under various planting conditions. These blockbuster seeds have helped Nath to increase its cotton seeds sales by more than 3x in last 4 years. A new seed has a life cycle of 7-8 years. The consistent high rank achieved by Nath's new seeds gives reasonable confidence about it growing its cotton seeds portfolio faster than the industry. Management has been guiding for 20% CAGR growth. The company has worked on de-risking its business by having multiple growth drivers like paddy, vegetable seeds and plant nutrient (win-chi-win) in its portfolio. The non cotton non paddy portfolio has grown by 14% and contributed to 38% of the overall revenue.

Nath strives to maintain good relations with farming community and build close contacts to work hand in hand with progressive farmers. The company has established a network of over 15,000 farmers growing seeds for the company. The Company has been awarded with the prestigious “Vasantrao Naik Prathisthan Award” for its contribution for enhancing Agricultural Productivity amongst other rewards & recognition.

COTTON

Cotton –Big boll and sucking pest tolerant are the two aspects which are attracting farmers attention. In the Cotton Industry, both areas are a reciprocal combination. If it is big boll then naturally it is susceptible to sucking pest conflict. Nath Bio is the only company barring one or two products in the market, to focus on this unique segment which is medium boll but having high level of sucking pest tolerance.

Products in the pipeline -NBC 1821, NBC 1851 and NBC 1811 have completed 1 year of ICAR Government of India enhanced cotton seed prices by Rs 37 per packet this year which is helping in adding better value. Extra ordinary efforts have been put in order to promote unique cotton products like NBC-10, Sanket and Dana. However, the treat of illegal HTBT Cotton continues to affect the industry.

In R&D, the company is developing products with:

- Medium and Large Boll
- High tolerance to sucking pests
- Wider adaptability
- Yield Superiority

Our strategy is to provide farmers with a wide range of varieties of cotton seeds suitable for diverse climatic conditions while maintaining yield superiority. The company has launched two new hybrids- Sanket and Dakash to bolster the growth in this segment.

Cotton expected to grow at 22%.

PADDY- Sales is a combination of Open Pollination and Hybrid Seeds. Hybrid Paddy sells at relatively higher margins and it is one of the major bottom line generators for the company given that paddy has the highest pie in our product portfolio. The company has invested heavily in hybrid research program and has launched new products: Dhoom, Dhadak and Dhadak Gold.

Currently Paddy as a segment is growing at a CAGR of 7-8%.

In terms of R&D, the company is developing products with:

- Early maturity, fine grain and resistance to diseases and pests
- Tolerance to moisture stress
- Medium-Bold and Long Bold grain products, Medium maturity (125-135 days), embedded with BLB and BPH resistance

Vegetables - Vegetables is a huge segment with varieties of product offerings. In few parts of India it is a round the year crop whereas in few it is majorly a Rabi focussed crop. It is a high margin segment for the company contributing 60% plus gross margins.

In terms of R&D, the company is developing:

- Multiple product varieties in the existing portfolio
- New products
- Foray into fruits as well with vegetables

Nath has its presence cross 10 products – Pan India. The company has a set a separate team for marketing and distribution. NBIL is in the process of launching multiple new products in Tomato and Okra with high disease resistance, in Chilly and Bitter Gourd with high yield and excellent virus resistance and in cucumber with no bitterness.

Plant Nutrient Supplement - Nath Bio-Genes has an exclusive tie-up with a Chinese company to source & market Win-Chi-Win in India. It is a Plant Nutrient Supplement, which has a proven track record of increasing the yield of the crops it is used on. Win-Chi-Win is sold round-the-year, across India & Nath Bio-Genes has witnessed high demand for this product for vegetables, field, plantation & horticulture crops. Two new products have been launched in the PNS vertical – both are soil conditioners and help raise a good crop by improving the soil quality. It is a high margin segment.

Others - Maize, Bajra, Mustard, Jowar and Wheat are majorly covered in this segment which higher concentration from Maize, Mustard and Bajra. This segment contributes about 20% to the topline of the company.

Financial Review

Despite a massively challenging year, in which the company was hit by COVID-19 in the key seasons, Nath bio genes has delivered a strong revenue growth of 10% and maintained the long-term debt free status. The growth is commendable pursuant to the pandemic situation, which hampered farmer and marketing personnel movement simultaneously. However, we maintained our gross contribution margin of 56% this year with a net profit margin of around 18%. The company also declared a maiden dividend of 20%. Strong growth was reported in the verticals of field crops, vegetable and supplements, thus strengthening the success towards moving to a de-risked business model. Vegetable portfolio volumetrically grew by 13%. High Gross margins of 50%+ have been consistently maintained. Field crops besides cotton and paddy have performed very well and contributed to 17% of the portfolio. Maize grew by 32%, bajra by 10%, Wheat by 34%. The overall volumetric growth was 10%. Plant nutrient segment, was massively impacted because of Covid, and it delivered a moderate growth of 80%. The product continues to give a margin of around 70% plus and in revenue contribution it maintained the 10% of the overall sales. Cotton portfolio grew by 5% - it took a significant hit due to COVID. A tight working capital cycle is maintained but has been impacted due to Cotton Sales return. The distributors were unable to place the product and there was a significant inventory build-up. However, Inventory is expected to normalize over the next two years. Receivable days have reduced from 140 to 130 days. Promoters have considerably reduced the pledge of their holding in the company to 20%. Pandemic situation is getting under control, but will still impact the upcoming kharif season marginally. Nath bio genes guidance maintained at a top line growth of 15-20% in FY22.

Outlook And Future Strategies

Potential to increase revenue multifold through new products and geographies
Huge opportunity in South East Asia and Africa
Insulates from a single country regulatory risk

Infrastructure

Research And Development

Using the best R&D expertise in the country, Nath Bio-Genes has successfully redefined product development & evaluation technologies, to create exceptionally high yielding hybrids with high levels of biotic & abiotic stress tolerance. One of its largest advantages over its peers comes from the company's proprietary collection of superior & world-class Trait Specific Elite Germplasm.

The company has:

- 18 Breeding and Evaluation R&D Stations in different Agro-Climatic conditions
- More than 300 acres of land dedicated to Research and Development, across the nation
- Collaboration with reputed International and National Centres of Excellence (NRCPB, CIMMYT, IRRI, ICRISAT Etc.)
- Team of handpicked plant breeders and biotechnologists, located at key R&D stations, across the country, guided by R&D veterans.

Pan India Operations

NBIL undertakes seed production in over 30,000 acres of land with about 25,000 loyal growers and 72 technically qualified organizers. Seed is produced in the states of Andhra Pradesh, Gujarat, Karnataka, Maharashtra, Rajasthan, Odisha, Uttar Pradesh, Madhya Pradesh and Tamil Nadu which covers different agro- climatic zones of the country. The company assures that seeds of the highest quality reach its processing centers by setting rigorous field standards and quality control checks throughout the seed production process. A team of qualified production staff and quality personnel visit to monitor farms in order to ensure stringent controls. The foundation seed with highest genetic purity is sown in all crops. The company constantly strives to build and improve relationships on a personal level with the production growers & organizers to ensure loyalty and commitment. Understanding their constraints, providing them the necessary training, guidance and financial support have led to fruitful results.

Elaborate Seed Processing Facilities

The company has elaborate seed processing facilities with 10 Processing Plants located in Maharashtra and Andhra Pradesh. The company also has processing arrangements in Gujarat, Karnataka, Tamil Nadu, Madhya Pradesh and Rajasthan on custom basis. The seeds received from growers are processed to achieve quality standards which surpass those prescribed by the regulatory authorities. All the plants are equipped with pre-cleaner, fine cleaner, grader, gravity separator, de-stoner, indented cylinder, treater, needle separator and packing machines which are fully automated. The company has independent facilities for ginning, de-linting, drying, processing, treating, packing and storage of seeds. The seed processing quality is taken to the next level by ensuring improvements in seed viability and prolonging the shelf life of seeds. All the packing material has best environmental barriers characteristics to guarantee optimal storage conditions for the seed.

Meticulous Quality Assurance

The quality policy of Nath Bio-Genes ensures meeting world class quality standards so that the farmers get optimal yields that maximize their profitability, keeping total quality management in view.

NBIL has one of the most stringent and systematic Seed Testing Laboratories at Maharashtra and Andhra Pradesh. The team conducts regular field inspection in entire production area. Also Genetic Purity tests are conducted to check germination of lots regularly. It is a consistent endeavour to ensure that the seeds are produced under best conditions and that all seed lots are of highest genetic purity. Every seed lot that comes into the Processing Plants is sampled and tested for Physical Appearance, Moisture, Other Distinguishable Varieties presence, Physical Purity, Treatment, Genetic Purity, Germination, vigour and Soil emergence and reported. The Genetically Modified Crops undergo the ELISA test to ensure Gene Purity. Quality Assurance is also involved in Foundation Seed Production inspection and Processing Plant inspection during processing and packing. Every year more than 2 lakh quality checks are conducted throughout the supply chain process in accordance with the International Seed Testing Association (ISTA) before packing & dispatch of seeds to marketing centres.

Strong Distribution Network

Nath Bio-Genes, led by Seed Marketing Veterans, has diversified to new geographies, both within & outside India, over the last 3-4 years. In India, the company has 16 business centres covering 131 territories & connecting with over 2,000 distributors, all across the country. NBGL aims to improve its Direct Retailer reach to over 20,000 by the upcoming year as compared to over 7,000 currently.

With a heartened presence in India, the company has been venturing to newer geographies outside the country, possessing similar agronomical conditions as India. all set to spread its wings in other parts of Asia, Africa & the Middle East.

Risk Mitigation

Uncertainties regarding government policies on GM or Hybrid seeds: Growing regulatory norms due to rising competition in the seed space, both from domestic as well as international companies could impact operations adversely.

Mitigation: Nath Bio-Genes has a strong compliance & R&D team, which keeps abreast of the various policy changes as well as international standards on GM and/or Hybrid seeds. The company will be able to adequately mitigate any challenges arising out of policy changes, supported by its middle-management & technology teams.

Technological Efficacy: Increased usage of the same kind of technology sometimes makes the soil or viruses and pests immune to the benefits of that technology.

Mitigation: Nath Bio-Genes has invested heavily in developing its R&D infrastructure, in order to introduce several new technologies & innovations to the Indian market and reduce its dependence on any one type of technology. The company will endeavor to continue creating seeds that remain high yielding & sufficiently resistant to several pests & viruses.

Weather Fluctuations: A large section of the world's agricultural community relies upon supportive weather conditions in order to produce & maintain their crops and fields. Any adverse climatic changes could impact production of foodgrains, vegetables, etc to a large degree.

Mitigation: Despite the advances in irrigation, any adverse climatic conditions continue to impact food production to a large degree. While Nath Bio-Genes' sales will also be impacted by such adverse weather conditions, the company is trying to reduce the impact of weather conditions by introducing seeds that can be grown in specific conditions like drought, head wave, etc. The company aims to keep the impact of such natural factors in check by proactive & prompt responses.

Cotton Business Impacted by Multiple Challenges: Uncertainty around policy approval or new technology and increasing proliferation of illegal seeds in cotton growing states. It is difficult to produce products based on consumer preferences and farmers are using illegal products which are herbicide tolerant.

Mitigation: The company has focused on creating a diversified portfolio. Company will increase focus on "All Season Products" for optimal utilisation of field force and channel partners. Company wants to target vegetable and plant nutrient segment growth at a higher rate.

Human Resources

As Nath Bio-Genes enters its growth phase, the company is investing heavily in human resources. The company has a dedicated team of researchers & scientists that form the backbone of the company & create the large variety of products that Nath Bio-Genes deals in. The company continues to nurture this team via various international alliances and workshops with reputed research institutes worldwide. Nath Bio-Genes is also focusing on increasing its sales & marketing team in order to widen the outreach of its products. the team undergoes constant training & motivation sessions to cultivate self-development. Nath Bio-Genes also endeavors to provide a supportive work environment where employees can realize their full potential. INDEPENDENT AUDITOR'S REPORT

To,
The Members of
Nath Bio-Genes (India) Limited
Aurangabad
Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Nath Bio-genes (I) Limited having CIN: L01110MH1993PLC072842 ("the Company"), which comprise the Standalone Balance Sheet as at 31st March 2021, the Standalone Statement of Profit and Loss (including other comprehensive income), Standalone Statement of Cash Flows and Standalone Statement of Changes in Equity for the year then ended, and notes to the Standalone financial statements, including a summary of significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and the other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2021 and its profit (financial performance including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Act and the rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	Audit Procedures
Effect of Covid-19 It is the responsibility of the management to make appropriate adjustments to the financial statements and ensure necessary disclosures specifically the impact on business due to Covid-19, subsequent risks and uncertainties, and conditions that may impact future operating results, cash flows and financial position of the entity. We are informed by the management that environment. Due to these circumstances, the management's assessment of the impact on the subsequent period is dependent upon the circumstances as they evolve; and consequently, we are unable to express our opinion as to how the future prospect of the company will be impacted. considering the present scale of operations, seasonal product, demand in the ensuing future, the management does not perceive any risk in ensuing operations, liquidity and capital resources. We find sufficient and appropriate evidences of such management perception on record. It is also concluded by the management that no adjustments are required in the financial statements as the company's operations have largely remained un impacted during the year. Although the situation of COVID-19 is still persisting, and the various preventive measures taken (such as lockdown restrictions by various State Government, travel restrictions etc.) are still in force, it is expected that these restrictions will be lifted soon. Due to these circumstances, them anagement's assessment of the impact on the subsequent period is dependent upon the circumstances as they evolve; and consequently, we are unable to express our opinion as to how the future prospect of the company will be impacted.	The audit procedures included but were not limited to: - Obtaining a detailed understanding of future business climate and demand potential. - Existing processes and controls of the Management. - Minutes of the Audit Committee/ Board and discussions with the appropriate Management personnel. - Possible outcomes and the reasonableness of the estimates. - Involvement of expert for technical guidance and evaluation of the assessments of the Management. - Evaluating appropriateness of adequate disclosures in accordance with the applicable accounting standards.

Agricultural Activities	
<p>The company is engaged in the production and processing of commercial and vegetable seeds at various pieces of lands taken on lease from various growers/farmers spread over throughout India. The company enters into seed production agreements with these farmers / growers. The company is compensating the farmers/growers for various cultivation expenses based upon the rate agreement entered in to. Thus, the company is engaged in the growing of various kinds of seeds based on the programs chalked out by the management depending on the area, climatic conditions, soil conditions, water resources, education of farmers, processing facilities etc.</p>	<p>We have performed the following principal audit procedures in relation to Agricultural Activities:-</p> <ul style="list-style-type: none"> - Evaluation and understanding of Seed production agreements. - Verification and evaluation of the documents for existence of farmers / growers on sample basis of the seeds. - Verification and evaluation of documents on sample basis for the existence of leasehold land. - Evaluation of the control / supervision over the crop. Evaluating the appropriateness of the adequate disclosures in accordance with the applicable accounting standards.
Valuation of Biological assets:	
<p>The value of Biological assets is measured at fair value less costs to sell. The fair value is determined based on the growth potential of individual standing crops. The growth potential varies depending on the geographic location and varieties of crops. The valuation requires estimates of growth, harvest, sales price and costs. In order to minimize the risk of vagaries of nature and other hazards, the company has entered in to production agreement with various growers to compensate them as per the rates in terms of the agreement. Due to the level of judgment involved in the valuation of biological assets and significance of biological assets to the Company's financial position, this is considered to be a key audit matter</p>	<p>We have performed the following principal audit procedures in relation to biological assets:-</p> <ul style="list-style-type: none"> - We have tested management's controls and effectiveness of systems in place for the valuation of the biological assets. - We have assessed the key assumptions contained within the fair value calculations including sales price assumptions and growth assumptions. - We have performed the analytical review of the results of valuation to highlight those areas which warrant further audit procedures. <p>Comparison of actual production costs with provisions made towards standing crops.</p>
Adoption of Ind AS 116 Leases	
<p>As described in Note 2(AA) to the standalone financial statements, the Company has adopted Ind AS 116 Leases (Ind AS 116) in the current year.</p> <p>Ind AS 116 introduces a new lease accounting model, wherein lessees are required to recognize a right-of-use (ROU) asset and a lease liability arising from a lease on the balance sheet. The lease liabilities are initially measured by discounting future lease payments during the lease term as per the contract/ arrangement. Adoption of the standard involves significant judgments and estimates including, determination of the discount rates and the lease term. Additionally, the standard mandates detailed disclosures in respect of transition.</p>	<p>Our audit procedures on adoption of Ind AS 116 include:</p> <ul style="list-style-type: none"> - Assessed and tested new processes and controls in respect of the lease accounting standard (Ind AS 116); - Assessed the company's evaluation on identification of leases based on the contractual agreements and our knowledge of the business; - Assessed the key terms and conditions of each lease with the underlying lease contracts and evaluation of the lease liability. - Assessed and tested the presentation and disclosures relating to Ind AS 116.

Information other than the Standalone Financial Statements and Auditor's Report there on

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

6. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

8. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

10. As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- e. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Report on Other Legal and Regulatory Requirements

14. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable. ANNEXURE “B” TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

1. We have audited the internal financial controls over financial reporting of Nath Bio-genes (I) Limited (“the Company”) as of 31st March, 2021 in conjunction with our audit of the Ind AS standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

2. The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

5. We believe that the audit evidence, we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting of the company.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to Financial Statements for the year ended March 31, 2021

1). General Information

Nath Bio-Genes (India) Limited (CIN L01110MH1993PLC072842) is incorporated under the Companies Act, 1956 with its registered office at Nath House, Nath Road, Aurangabad. The company is engaged in the business of Production, Processing, and Marketing of Hybrid and GM Seeds. The Company has a product range of Field crops, Vegetable crops and Plant Nutrient Supplements. The major Processing Plants are situated at Aurangabad (MS), and Munipalli, Nizamabad (TG). The company has a Pan India presence for sales through an extensive network of distributors.

2). SIGNIFICANT ACCOUNTING POLICIES:

A Basis of Preparation and Presentation

- i) The financial statements are prepared on historical cost basis in accordance with applicable Indian Accounting Standards (Ind AS) and on accounting principles of going concern except fixed assets which are measured at fair values. These financial statements have been prepared to comply with all material aspects with the Indian accounting standards notified under section 133 of the Act, (the "Act") read with Rule 7 of the Companies (Accounts) Rules, 2014, and the other relevant provisions of the Act.
- ii) Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policies hitherto in use.
- iii) All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current classification of assets and liabilities.

B REVENUE RECOGNITION

- i) Revenue is measured at the fair value of the consideration received or receivable where the ownership and significant risk has been transferred to the buyer.
- ii) Interest on overdue debtors is accounted for as and when received, as the collection cannot be ascertained with reasonable certainty.
- iii) Sales return are accounted for / provided for in the year in which they pertain to, as ascertained till finalization of the books of account.
- iv) Compensation on account of crop quality discounts are accounted for as and when settled.

C PROPERTY, PLANT AND EQUIPMENTS

- i) Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at deemed cost less and accumulated depreciation. Freehold land is not depreciated.
- ii) Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.
- iii) Furniture and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.
- iv) An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised to the standalone statement of profit and loss.
- v) Seed Development know how acquired by the company is capitalised at the cost of acquisition.
- vi) Live stock is stated at cost without any depreciation/ impairment

D BIOLOGICAL ASSETS

Recognition and measurement

The company recognises the biological asset (agricultural produce) when:

- the company controls the asset as a result of past events;
 - it is probable that future economic benefits associated with the asset will flow to the company; and
 - the fair value or cost of the asset can be measured reliably
- The biological asset are measured at the end of each reporting period at its fair value less costs to sell.

E CAPITAL WORK-IN-PROGRESS

Expenditure related to and incurred during the implementation of the projects is included under Capital Workin-Progress and the same are capitalized under the appropriate heads on completion of the projects.

F DEPRECIATION / AMORTIZATION

- Depreciation on tangible Fixed Assets is provided for on basis of useful life specified in Schedule II to the Act.
- Intangible assets such as Gene/Seed Development Know-How are amortized in ten equal yearly instalments commencing from the year in which the tangible benefits start accruing to the Company from such assets.
- Depreciation is charged as per the provisions of Schedule II to the Act based upon useful life of assets. The useful life is adopted for the purpose of depreciation is as under.

Assets	Useful life year
i) Factory Building	30
ii) Plant & Machineries	15
iii) Laboratory Equipment	10
iv) Agricultural Equipments	15
v) Office Equipments	15
vi) EDP Equipments	3
vii) Furniture & Fixture	10
viii) Motor Car & Light Vehicle	8

G IMPAIRMENT

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

H RESEARCH AND DEVELOPMENT EXPENDITURE:

The research expenditure incurred has been charged off to the Statement of Profit & Loss.

I INVENTORIES:

- Inventories comprise of Unprocessed seeds, Under- Processed Seeds, Processed Seeds, Packing Material and traded goods. Inventories are valued at the lower of cost or the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Weighted Average basis. Cost includes all charges in bringing the goods to their present location and condition and receiving charges.
- The cost of Under-Processed Seeds and Processed Seeds comprises of direct labour, other direct costs and related production overheads. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

J FOREIGN CURRENCY TRANSACTIONS:

- Transactions in foreign currency are recorded at the rate prevailing on the date of the transaction.
- Current Assets and Current Liabilities in foreign currency outstanding as at the year-end are stated at the rates of exchange prevailing at the close of the year. The resultant gains/losses of the year are recognized in the Statement of Profit and Loss.

K GOVERNMENT GRANTS

- Grants are accounted for where it is reasonably certain that the ultimate collection will be made.
- Grants relating to Fixed Assets in the nature of Project Capital Subsidy are credited to Capital Reserve.
- Others are credited to Statement of Profit and Loss.

L EMPLOYEES BENEFITS:

Liability as at the year end in respect of retirement benefits is provided for and/ or funded and charged to Statement of Profit and Loss as follows:

i) Provident Fund / Family Pensions:

At a percentage of salary/wages for eligible employees.

ii) Retirement benefit costs and termination benefit :

The Company determines the present value of the defined benefit obligation and recognizes the liability or asset in the balance sheet. The present value of the obligation is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each year

Defined benefit costs are composed of:

(a) service cost – recognized in profit or loss; service cost comprises (i) current cost which is the increase in the present value of defined benefit obligations resulting from employee service in the current period, (ii) past service cost which is the increase in the present value of defined benefit obligations resulting from employee service in the prior periods resulting from a plan amendment, and (iii) gain or loss on settlement.

(b) remeasurements of the liability or asset - recognized in other comprehensive income.

(d) remeasurements of the liability or asset essentially comprise of actuarial gains and losses (i.e. changes in the present value of defined benefit obligations resulting from experience adjustments and effects of changes in actuarial assumptions).

Short-term benefits: A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave and other short term benefits in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Other long-term benefits: Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

iii) Bonus :

The company recognises a liability and expense for bonus. The company recognises a provision where contractually obliged or where there is past practice that has created a constructive obligation.

M BORROWING COST

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred. The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the period less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset. The Company suspends capitalisation of borrowing costs during extended periods in which it suspends active development of a qualifying asset

N AGRICULTURAL ACTIVITIES

i) Income from the agricultural activities is accounted for up to the stage of dispatch of goods by the Company to the customer after processing.

ii) Expenses which are directly related to the agricultural activities have been accounted for in the books of account under the Production Expenses. Expenses which are not related to the specific activities are allocated on the basis of turnover (net of return and Schemes & Discounts) of Agricultural activities and Trading activities.

O EARNING PER SHARE

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit for the year attributable to equity share holders. The weighted average number of equity shares outstanding during the year and for all years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

P TAXATION

INCOME TAX

Provision for Current Tax is made and retained in the accounts on the basis of estimated tax liability as per applicable provisions of Income Tax Act 1961.

DEFERRED TAX

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the

extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax for the period

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination. The Company recognises interest levied and penalties related to Income Tax assessments in the tax expense.

Q USE OF ESTIMATES

The preparation of Financial Statements requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of Financial Statements and the reported amounts of revenues and expenses during the reporting period. Difference between the actual results and the estimates are recognised in the period in which the results are known/ materialised.

R PROVISION AND CONTINGENT LIABILITIES

Provisions: Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are not discounted to its present value.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

S CASH AND CASH EQUIVALENTS

In the Cash Flow Statement, cash and cash equivalents includes cash on hand, demand and short term deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

T FINANCIAL ASSETS AT AMORTISED COST

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

U FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and a contractual terms of the financial assets give rise on the specified dates to cash flows that are solely payment of the principal and interest on the principal amount outstanding.

V FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of assets and liabilities at fair value through profit and loss are immediately recognised in the statement of profit and loss.

W FINANCIAL LIABILITIES

Financial liabilities are measured at amortised cost using the effective interest method, if tenure repayment of such liability exceeds one year.

X EQUITY INSTRUMENTS

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. The Company recognises equity instruments at proceeds received net off direct issue cost.

Y RECLASSIFICATION OF FINANCIAL ASSETS

The Company determines classification of the financial assets and liabilities on initial recognitions. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when a company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains and losses) or interest.

Z OFFSETTING OF FINANCIAL INSTRUMENTS

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet if there is currently enforceable legal right to offset the recognized amounts and there is on intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

AA LEASES :

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases in which case the same are recognised as an expense in line with the contractual term.

The management assessed that the fair values of short term financial assets and liabilities significantly approximate their carrying amounts largely due to the short term maturities of these instruments. The fair value of financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction among willing parties, other than in a forced or liquidation sale.

The Company determines fair values of financial assets and financial liabilities by discounting contractual cash inflows/ outflows using prevailing interest rates of financial instruments with similar terms. The fair value of investment is determined using quoted net assets value from the fund. Further, the subsequent measurement of all finance assets and liabilities (other than investment in mutual funds) is at amortized cost, using the effective interest method.

Discount rates used in determining fair value

The interest rate used to discount estimated future cash flows, where applicable, are based on the incremental borrowing rate of the borrower which in case of financial liabilities is the weighted average cost of borrowing of the Company and in case of financial assets is the average market rate of similar credits rated instrument.

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuation, including independent price validation for certain instruments.

Fair value of financial assets and liabilities is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The following methods and assumptions were used to estimate fair value:

a) Fair value of short term financial assets and liabilities significantly approximate their carrying amounts largely due to the short term maturities of these instruments.

b) The fair value of the Company's interest borrowing received are determined using discount rate reflects the entity's borrowing rate as at the end of the reporting period. The own non performance risk as at the end of reporting period was assessed to be insignificant.

Fair value hierarchy

All financial instruments for which fair value is recognized or disclosed are categorized within the *fair* value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level-1: Quoted (unadjusted) price is active market for identical assets or liabilities

Level-2: Valuation technique for which the lowest level input that has a significant effect on the fair value measurement are observed, either directly or indirectly.

Level-3: Valuation technique for which the lowest level input has a significant effect on the fair value measurement is not based on observation market data.
