NATH
GROUP

A Passion Beyond Business

NATH INDUSTRIES LTD.

Unit : Nath Paper, Aurangabad

Nath Paper is a large producer of eco-friendly value added papers and boards.

The Company has fully integrated pulp and paper manufacturing facilities at Aurangabad in Maharashtra, producing a wide range of high quality products mainly high strength core boards and thermal paper for fax machines & ATMS etc.

The company generates its own power from waste heat recovery. The water used in the manufacturing process is treated and reused for captive irrigation to produce flowers, fruits and vegetables. This exhibits our resolve to address the environmental and ecological concerns.

The company has been the recipient of a series of National Productivity Awards for excellence in performance, capacity utilization and energy conservation.

Unit : Rama Paper, Vapi

Rama Paper is engaged in manufacturing of wide range of value added specialty papers.

We are a leading producer of absorbent kraft paper which is used as a base for manufacturing of decorative laminates. Product range includes various grades of tissue papers in different colours used for manufacturing carbonless paper, Napkins and decorative packaging.

Rama Paper has a wide network of consumers and dealers across the country. Company's products have found large export market in Middle East, South East Asia, Europe, USA and Latin America.

NATH INDUSTRIES LTD.

Unit : Nath Chemicals, Vapi

Nath Industrial Chemicals specializes in manufacturing of Sulphur based industrial chemicals.

The state of the art modern plant has a capacity of 1,20,000 MT per annum for manufacture of Sulphuric Acid, Oleum, Sulphur Trioxide, Chlorosulphonic Acid, Sulphur Dioxide, 18000 MT of Thionyl Chloride and 18000 MT of Linear Alkyl Benzene Sulphonic Acid.

These chemicals are widely used in manufacturing of textiles and dyes, Agrochemicals, Pharmaceuticals and also soaps and detergents.

NATH SEEDS®

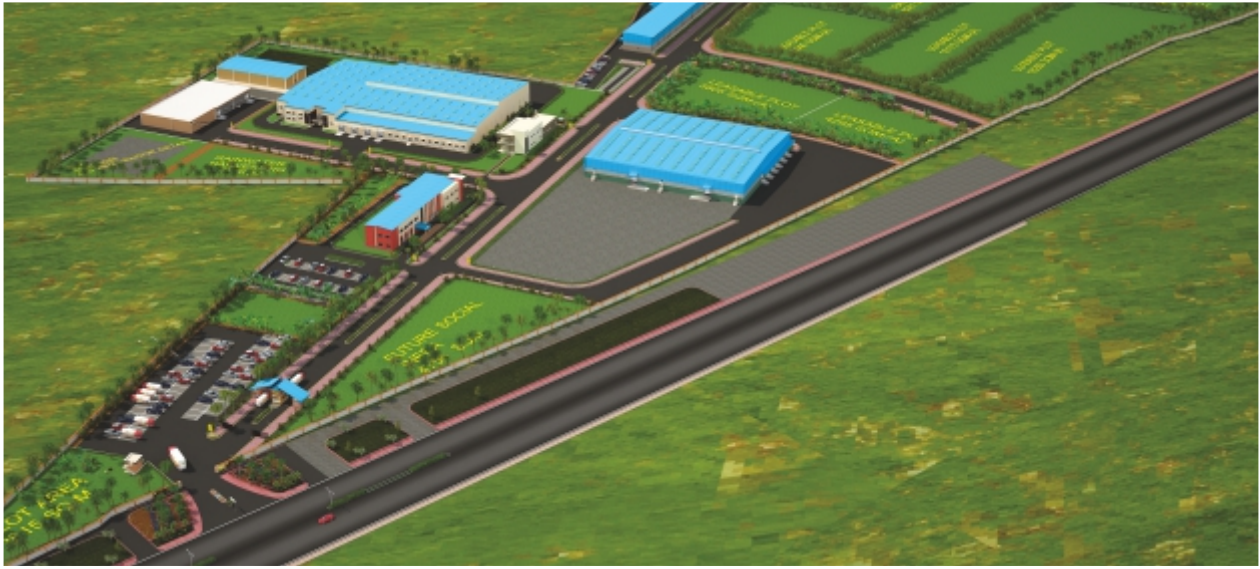

Nath Bio-Genes (I) Ltd.

हर बीज खरा, शक्ति भरा®

Nath Bio-Genes is an intensely research driven pioneering seed company committed to provide the Indian farmer with best of seeds on planting. Nath Bio-Genes has developed a wide range of seeds for crops on national importance mainly cotton, rice, wheat, corn, pearl millet, jowar, mustard and also a wide range of vegetables comprising tomato, okra, brinjal, gourds, hot pepper, cucumber, watermelon etc.

Nath Bio-Genes has directed linkages with over 15,000 farmers for producing quality seeds on about 35,000 acres of land making available quality seeds for over 5 million acres. The company has wide network of fully equipped research stations, processing plants, warehouses and marketing offices all over the country.

Nath seeds is a trusted brand enjoying loyalty and good will of the farming community.

Paithan Mega Food Park Pvt. Ltd., is promoted by Nath Bio-Genes (I) Ltd., an associate company of Nath Group.

Nath Group in its journey of over four decades has played a significant role in farmer's prosperity by ensuring agricultural development through extensive research and use of cutting edge technology.

Paithan Mega Food Park Pvt. Ltd., with state of the art infrastructure and world class processing facilities is yet another initiative in this direction. It is aimed to build robust backward and forward linkages and serve as an expressway between the farmers and the consumers.

With a sprawling 110 acre campus it is designed to meet international standards in providing common infrastructure and creating a formidable ecosystem of food processing units within its fold.

The company is engaged in large scale development of infrastructure for a mega food park, an industrial park and a solar park, residential and commercial real estate in the fast growing city of Aurangabad and a futuristic, eco-friendly nature resort at Karjat near Mumbai in Maharashtra

NATH GROUP A PASSION TO EXCEL

From biotechnology to hybrid seeds and food park from value added paper to industrial chemicals Nath Group's activities are diverse and challenging.

Both Nath's concerns and commitments go much beyond business. Adoption of villages, rural development, health care, education and culture

As a true corporate citizen, everything we do must contribute to economic, ecological and human equilibrium. Merging nature with mankind.
